But one is grateful that this is one plant which was allowed to grow and flourish in the gardens, instead of being considered to be just another weed, which had this habit of taking over large coppices, which were rich in natural humus. This very popular fruit, cultivated globally is now known as the garden or just a strawberry. It belongs to the Fragaria genus of plants, which is made up of other fruits which are not berries, but are a number of aggregate fruits....
