

Designing Gardens with Flora of the American East

By Ms. Carolyn Summers

Rutgers University Press. Paperback. Book Condition: New.

Paperback. 240 pages. Dimensions: 8.9in. x 5.9in. x

0.7in. Gardeners, with all good fortune and flora, are endowed with love for a hobby that has profound potential for positive change. The beautifully illustrated *Designing Gardens with Flora of the American East* approaches landscape design from an ecological perspective, encouraging professional horticulturalists and backyard enthusiasts alike to intensify their use of indigenous or native plants. These plants, ones that grow naturally in the same place in which they evolved, form the basis of the food web. Wildlife simply cannot continue to survive without them—nor can we. Why indigenous plants, you may ask? What makes them so special to butterflies and bees and boys and girls? For Carolyn Summers, the answer is as natural as an ephemeral spring wildflower or berries of the gray dogwood. As I studied indigenous plants, a strange thing happened. The plants grew on me. I began to love the plants themselves for their own unique qualities, quite apart from their usefulness in providing food and shelter for wildlife. Emphasizing the importance of indigenous plant gardening and landscape design, Summers provides guidelines for skilled sowers and budding bloomers. She highlights

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Natalie Abbott**

This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.
